\*1 Internet connection must be available to use this service. In case there is no Internet connection, the device is recognised as "Other devices".

Open "Devices and Printers" and right-click on the non-working device and select "Troubleshoot". Click on "Apply this fix" to install the driver using Windows Update.

\*2 The version of the printer driver provided by Windows Update service is Ver 1.01.

\*3 The version of the included printer driver in the OS is Ver 1.1.

\*4 Download Add-on Module to get enhanced functionality at Canon Website.

\*5 Download IJ Network Tool at Canon Website.

\*6 Upgrading from Windows Vista to Windows 7 may result in Printer / Scanner driver or Network Tool removal.

\*7 Connecting a non-supported printer to a computer with Internet, printer driver for Windows XP will be installed by Windows Update.

The operations at Windows 7 are not guaranteed. Use a Windows 7 compatible printer instead.
